

Full Stack Developer (MERN) with experience in building responsive web applications using React.js, Node.js, Express, MongoDB, and Firebase. Strong understanding of REST APIs, authentication systems, and deployment workflows.

EDUCATION

S.D. College of Engineering & Technology, (AKTU)	Muzaffarnagar,U.P, India
Bachelors of Technology (Computer Science & Engineering); CGPA: 7.83	June 2022 - June 2026
S.D. Public School	Muzaffarnagar,U.P, India
XII - PCM(CBSE) ; Percentage: 84.4%	2022
X - (CBSE) ; Percentage: 86.8%	2020

SKILLS

- **Languages:** Java, HTML5, CSS3 ,JavaScript (ES6+)
- **Frontend:** React.js, Redux, Tailwind CSS, Bootstrap, Material UI, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Tools:** Git, GitHub, Postman, Firebase (Auth, Firestore), Vite (basic), VS Code, Netlify, Render
- **Concepts:** Data Structures & Algorithms (DSA), SDLC, OOPS
- **Databases:** MongoDB (basic), SQL

WORK EXPERIENCE

React JS Developer Intern Celebal Technologies LINK	June 2025 - Aug 2025
• Developed 4+ responsive React applications using React.js, Material UI, and Hooks. • Designed and implemented Celebal Mart with Firebase Authentication & Firestore. • Integrated 5+ REST APIs, improving component reusability by 25%. • Collaborated with team members and participated in code reviews.	
Open Source Contributor GirlScript Summer of Code LINK	Oct 2024 - Nov 2024
• Contributed 7+ pull requests (PRs) to live projects using HTML, CSS, and JavaScript. • Gained hands-on-experience with Git workflows, collaborative coding, and asynchronous teamwork via GitHub.	

PROJECTS

XploreStays (MERN Stack + MVC Framework) LINK	Mar 2026 - Apr 2026
• Developed a full-stack stay booking platform with advanced search, transparent pricing breakdown, and role-based authentication. • Engineered a Smart Ranking System (0–100) using weighted scoring (trust, ratings, price fairness) with an explainable “Why this score” layer. • Integrated AI-generated listing insights using Gemini API with a fallback mechanism for reliability under rate limits. • Structured application using MVC architecture and deployed on Render with Cloudinary-based image handling.	
ZerodhaX — Full-Stack Trading App (MERN Stack) LINK	Jan 2025 - March 2025
• Developed a real-time stock trading platform with protected routes, live charting, and JWT-based authentication. • Implemented full-stack features using MongoDB, Express.js, React.js, and Node.js. • Deployed the application using Render and Netlify for seamless access.	
Celebal Mart — Shopping Web App (React + Firebase) LINK	Jun 2025 - Aug 2025
• Designed and implemented a responsive e-commerce web app using React.js, Firebase Authentication, Firestore, and Material UI. • Managed user sessions, cart functionality, and UI state using React Hooks. • Deployed the application using Render for seamless access.	

ACHIEVEMENTS

DSA (Java) - Shraddha Khapra CERTIFICATE	June 2025
Full Stack Web Development - Shraddha Khapra CERTIFICATE	Feb 2025
DSA Practice: 250+ problems Leetcode ,SQL Practice: 50+ problems Leetcode	
Cloud Computing Certification 5 days Bootcamp - NIELIT DELHI CERTIFICATE	Jan 2026
